Sports

Makerspace

Concurrent
Enrollment

global ARTS Virtual

Students and staff have weekly opportunities to join a supportive environment, create community, explore the arts and your individual expression. Through weekly online workshops, field trips, guest artists, performances, and historic credit, this doorway can connect students with each other, introduce you to the arts and let them share what they have created.

Virtual

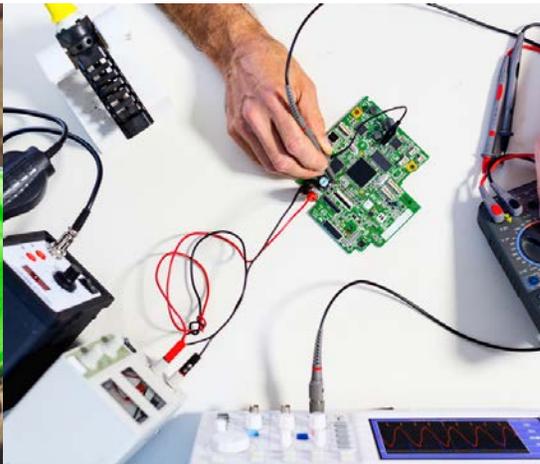

Students and staff realize the importance of healthy living and fitness as they receive guidance through body weight, do-anywhere workouts to help them achieve your personal fitness goals.

Virtual

Gardening

Electronics

Crafts

Cooking

Students and staff are invited to the Global Makerspace in zones or virtually as they discover the amazing world of hands on educational experiences.

global Mindfulness Virtual

Mindfulness is a time that students, parents and staff can gather to have several moments of quiet and calm. Gently guided exercises to breathe deeply, focus in on the mind and body, to help center one for the day and tasks ahead.

This opportunity takes place four days each week.

Our current Virtual programs (Makerspace, Mindfulness, Arts and Health & Fitness) are expanding opportunities for students to get more involved at home. Our program leads are replicating the instructional processes at schools and continuing to connect with students. The practice of home-based, self-directed learning is very useful for determining the students next career path. Home-based, self-directed learning is easy to initiate through our student portal, Clever; because our primary mission is to create a happy home base from which our students' children can explore and learn about their family, community and world.

CAREER NOW

- **students who are over-age and under-credit to earn their high school diploma**
- **competency based**
- **prepares students to be successful in the workforce**
- **17-20 years old with at least 10th grade math and reading capabilities**

A young man with short dark hair, wearing a green t-shirt and a black backpack, is smiling warmly at the camera. He is standing in a brightly lit school hallway with other students blurred in the background. In the upper left corner, there is a semi-transparent teal circle containing a green icon of a graduation cap and books, and the text 'CONCURRENT enrollment' in blue and black fonts.

with at your service career and academic advising

VIRTUAL advising

weekly opportunities to check in with an assigned advisor as you craft your future

with cutting edge social-emotional Support

We've been in your shoes. We understand what it takes to reach a student. We know what it's like when you can't.

Our online Social-Emotional Learning Curriculum changes the game when it comes to addressing the mental health of teens. We use technology to engage students and allow supervising adults the ability to have effective follow-up conversations. With up-to-the-minute progress monitoring, school administrators can gauge safety, resiliency, and growth.
